PROFILE

Product Designer with a distinctive background in fashion design leadership and healthcare operations, now applying deep creative and management experience to digital product design. Skilled in user-centred research, wireframing, prototyping, and cross-functional collaboration. Combines strong visual craft, stakeholder management, and systems thinking to deliver intuitive, impactful digital experiences.

EXPERIENCE

Product Design Intern

Nov 2025 – Present

Podus · United Kingdom

- Design user-centred web and mobile experiences across the full product lifecycle.
- Create wireframes, user flows, prototypes, and high-fidelity designs in Figma.
- Conduct user research and usability testing to identify improvement opportunities.
- Collaborate with product managers and engineers; support design system maintenance.

Team Lead

Jan 2023 – Present

Bolff Health Care · United Kingdom

- Lead multidisciplinary teams; coordinate daily operations and regulatory compliance.
- Drove process improvements through data-informed decisions, growing customer base by 30%.
- Managed team performance, coaching, and development — boosting productivity by 20%.
- Reduced user dissatisfaction by 40% through structured communication and problem-solving.

Lead Fashion Designer

Jan 2016 – Nov 2022

G-Touch Apparels · Nigeria

- Led end-to-end design from concept through production, achieving 95% accuracy rate.
- Conducted market research and trend analysis, driving 30% business growth.
- Managed cross-functional teams and supplier relationships, reaching 4,000+ customers.
- Improved user satisfaction by 23% through user-focused creative problem-solving.

SELECTED PROJECTS

Small Business Service Management Dashboard

Centralised B2B dashboard for bookings, staff, and services — designed during internship at Podus using Figma and Maze usability testing.

E-Commerce Fashion Marketplace

Mobile-first marketplace connecting independent designers with buyers, informed by 6 years of first-hand fashion industry experience.

Medication Reminder Mobile App

Accessible mobile app for medication adherence with caregiver sharing — WCAG 2.1 AA compliant, informed by healthcare operations background.

Healthcare Appointment Booking Platform

Two-sided booking platform reducing patient flow from 8 steps to 4, with a staff-facing scheduling interface and shared design system.
